

ORANJEWOUD

EXPORT ACADEMY

Ready to see the world?  
Ambition. Eagerness. Responsibility.  
These things drive you.

## We kickstart your international career!

Get ready to convince us you deserve 1 of our 8 exclusive places to develop an international market in our 1.000-day programme. Combining a full-time job in a Dutch company with training, guidance and mentoring by (inter)national experts.

### You have to deliver

You will realise new client acquisition, building and maintaining relations across the globe. You will sell, be responsible for revenue growth. You will probably sleep in shitty hotels, or in the back of an Uber... Travel and dine alone most of the time...

**We don't care what you studied, if this is your first job or you're about to make a career change.**

**We care about your character, perseverance, commercial drive and entrepreneurial mindset.** We require you have a degree from a vocational or higher education (mbo, hbo, wo) and are able to speak at least English at a professional level.

### Excited? Let us know!

Send us your motivation and we invite you for an intake to manage expectations. Two things could happen; either we jointly conclude that it's not going to work or decide that you really should get an invitation for bootcamp!

In our 5 days bootcamp (one day a week) it's up to you to prove to yourself and our jury of export managers you're export manager material and suitable to participate in our 3 year Export Lab. The next step is come to a match with one of the companies that's looking for their new export manager.

Since the company that employs you will seriously invest in you (full time salary & €35.000,- for your 3 year training on the job) we ask you to make a small investment (€475 ex VAT) in yourself. This amount is not covering the bootcamp costs, so we invest in you too. We are a foundation and not allowed to make profit.

All training days are on a top-notch location given by experts. Dinner and drinks are provided.

*Mr. B. Kruijt*
